CVFD Delivers State of the District

The Chino Valley Fire District Board of Directors presented the annual State of the Fire District on Tuesday, October 30, 2018, at the Fire District's Training Center. The event highlighted the Fire District's future-focused commitment.

The video presentation highlighted the Fire District's capabilities as an all-risk fire department, ongoing community engagement, and the District's commitment to grow alongside the communities we serve to meet demands for emergency services.

The Fire District was also recognized for receiving the 2018 District of Distinction "Platinum" Accreditation Award. The award is California Special Districts Association's (CSDA) highest level of accreditation awarded for good governance and ethical and sound operating practices. The Fire District was the first fire district in California to receive the District of Distinction accreditation in 2008 and now is the first fire district to receive the "Platinum" level designation.

The State of the Fire District video presentation can be found on our website, at www.chinovalleyfire.org.
